

# Babio Instant Rice

A new type of manufactured rice

Presented by: Scott Kelly

# Uncooked rice can't be digested

Some lectins in uncooked rice can damage your digestive tract and cause vomiting and diarrhea.

As not everyone has a rice cooker,  
there have been many attempts to  
create instant rice...

# Types of instant rice

High price/Lots of packaging/Chemicals  
**Self heating rice**

High water content  
 Shorter shelf life  
 Bulky  
**Precook packed rice**

Poor mechanical properties  
 Hot water preparation results in congee/porridge  
**Puffed Rice**

## Why Babio is unique?

New manufacturing process

Can be prepared even with ice water

Babio instant rice can be prepared at  
any water temperature

**COLD WATER**

For emergencies

**HOT WATER**

For convenience

**MICROWAVE**

Food at home

Babio instant rice retains its  
mechanical properties.

Texture and taste just like normal  
rice.

## Technology behind the product

Patent pending

100% rice

Our 'micropore' process has been perfected

Production line in operation

Multiple product development streams

## BUSY URBAN CONSUMERS

- Everyone eats rice, but a single person may not use a rice cooker
- Many people purchase convenience foods – such as instant noodles
- We estimate there is a huge market for instant rice that is prepared like instant noodles

**Instant rice can be  
an alternative to  
instant noodles**

TOKYO -- Global demand for instant  
noodles reached **121.2 billion**  
**servings last year**, industry  
figures show, growing for the seventh  
straight year to hit an all-time high.

**Size of the  
Market**

Just add **hot water**

Babio Rice

---

# In any disaster – people need food

- Easy to prepare
- Minimal logistics & staffing
- Meets daily requirements
- Long shelf life

- An emergency food supply
- 2 kg – one person one week
- 10-year shelf life

# Survival Rice

---

## Emergency Food Market

UNHCR most recently estimated that, by the end of 2023, for the first time in recorded history, the number of people forcibly displaced is now over

**122.6 million**, with over 32 million refugees under UNHCR's mandate and another 6 million Palestinian refugees.

No infrastructure on the ground, air dropped logistics, no reliable water supplies, no electricity, no staffing needed

Disaster Relief

Humanitarian Aid

Centralized kitchens can cook survival rice in bulk or distributed to take home to combine with other food

Military

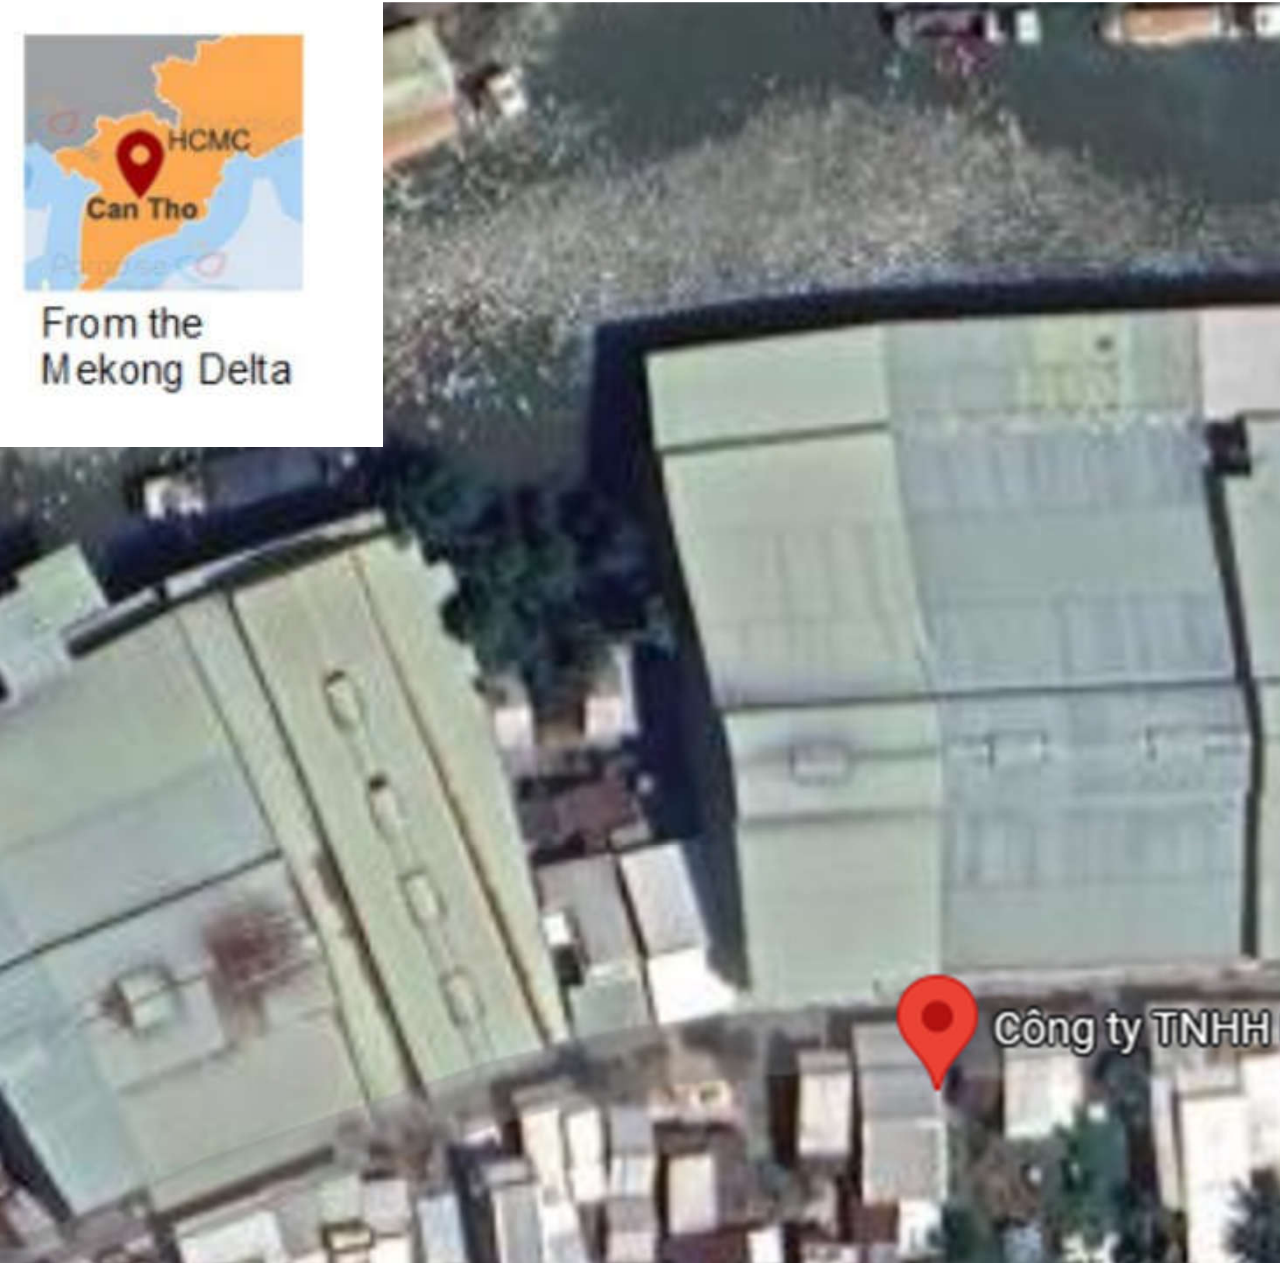

Camping

Survival rice can be eaten in a pouch and has a 10 years shelf life without preservatives or chemicals

From the  
Mekong Delta

# Execution plan

Set up production in our Vietnam facility.

Expand production capacity by 30x.

# Summary

Our facility is in Vietnam at our affiliated company

We have a patent pending on process technology

We designed our own machinery

The product is available and tested

We need funds for global expansion
